A PRONOUNCING BIOGRAPHICAL DICTIONARY

CONTAINING MORE THAN

TWELVE THOUSAND NAMES OF NOTEWORTHY PERSONS

WITH

THEIR NATIONALITY, THEIR STATION, THEIR PROFESSION OR OCCUPATION, AND THE DATES OF THEIR BIRTH AND DEATH

THE design of this work of biographical reference is to furnish short answers to the questions most frequently asked concerning any one of the distinguished or notable persons herein mentioned; namely: What is the correct spelling and pronunciation of his name? What was he? What was his nationality? When did he live?

Where two or more members of a family are mentioned, the relationship is stated in italics immediately after the Christian name (as *Son*, *Father*, etc., as the case may be). An assumed name, a sobriquet, or an original name not so well known, is generally printed in italics. The italic words in brackets indicate something noteworthy with which the person has had to do, as a book, a painting, an invention, a discovery, a doctrine, or the like. In many instances what is thus inclosed serves to identify the person clearly.

The mark of interrogation indicates an approximate or a doubtful date.

fl. means flourished *or* lived.

Where two or more persons having the same name are mentioned, the pronunciation is given with the name of the first individual only, if it is the same for each.

The figures sometimes given with the respelling for pronunciation refer to sections in the Guide to Pronunciation.

For special treatment of various sounds in foreign languages, see pp. 2376–2378.

The dates ***before*** *the Christian Era are denoted by* B. C.

A

Born. Died.

Aagesen (ô′gĕ-sĕn), Svend. Earliest Danish historian....1130— ?
Aali Pasha (ä′lē pä-shä′). Turkish statesman....1815—1871.
